## **EXPRESSIVE ABSTRACTION & FIGURATIVE PRESENCE**

Nadine Hamata is a multidisciplinary visual artist working between expressive abstraction and figurative symbolism. Her paintings combine raw artistic energy with a strong sense of composition, creating works that feel both spontaneous and deliberately structured.

Influenced by her background in design and visual storytelling, Hamata's work merges aesthetic precision with emotional depth. Through bold contrasts, layered structures and intuitive gestures, abstract compositions begin to reveal figurative elements.

Working primarily with mixed media on canvas, she explores the dynamic tension between control and spontaneity, creating paintings that hold visual presence and invite interpretation.
